Cautionary Statement Regarding Forward-Looking Statements

This report and IGATE’s other public pronouncements contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are generally identified by the words “will,” “intends,” “expects,” “anticipates,” “estimates,” “predicts,” “believes,” “estimates,” “should,” “potential,” “may,” “forecast,” “objective,” “plan,” or “targets” or similar expressions and include IGATE’s expectations as to future revenue growth, earnings, capital expenditures and other spending, dividend policy, and planned credit rating, as well as anticipated reductions in spending. These forward-looking statements reflect management’s current views and assumptions regarding future events and financial performance. These statements are subject to risks, uncertainties, assumptions and other important factors, many of which may be beyond IGATE’s control, and could cause actual results to differ materially from those expressed or implied in these forward-looking statements. Factors that could cause actual results or events to differ from such statements include, but are not limited to:

• the occurrence of any event, change or other circumstances that could give rise to the termination of the Merger Agreement,

• the failure to receive, on a timely basis or otherwise, the required approvals by government or regulatory agencies,

• the risk that a closing condition to the proposed Merger may not be satisfied,

• the ability of IGATE to retain and hire key personnel and maintain relationship with customers, suppliers and other business partners pending the consummation of the proposed Merger, and

• other factors described in “Risk Factors” and “Cautionary Statement Relevant to Forward-Looking Information” in IGATE’s Annual Report on Form 10-K for the fiscal year ended December 31, 2014 filed with the SEC on February 9, 2015, as well as the Information Statement to be filed by IGATE.

These forward-looking statements speak only as of their dates. Neither IGATE nor Capgemini undertakes any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

* For Q4, 2014
At a time when market dynamics and the technology landscape are changing so dramatically, clients are looking for partners who can solve their business challenges with speed, agility and imagination.

- Increased our global presence ensuring that we stay closer to our customers and markets.
- Moving from a “mile wide, inch deep” structure to an “inch wide, mile deep” structure and to a higher level of accountability and responsibility for our leaders.
- Enables us to build specific process and technology capabilities that address specific client issues taking into account the market and industry context.
- With $1.3 Billion in revenues and over 30,000 employees, IGATE is right sized to solve its clients’ business challenges with speed, agility and innovation.
Differentiated Business Model – ITOPS

ITOPS is an integrated business model that combines process outsourcing with underlying technology

**ITOPS Overview**

- BPO delivery methods differ based on technology used; traditional BPO providers offer little to no technology
- Large outsourcing providers may offer both IT and BPO, but as separate services
- With ITOPS, IGATE differentiates itself with **fully-integrated technology and BPO solutions**

**ITOPS Value Proposition**

- **Better alignment of business processes** to IT services and infrastructure
- **Focus on ROI** of IT investments and business process improvement
- Shift from fixed costs to **variable costs**
- **Flexibility** to ramp up or downsize resources
- **Single point** strategic consulting and integrated decision support

**Monetization of ITOPS value proposition through productized applications and platforms**
